SSP:

- Math Goal: initiating engagement with mathematical learning. We will continue to work on building confidence for students
- Literacy Goal: for student to be able to critically assessing texts
- Well-Being Goal: increasing student voice in a safe and meaningful way. A group of students have been selected as a focus group to consider Survey Results and what they think we need to focus on.

VP Report on Student Success Survey Results:

- Bedford/Dartmouth:
 - Positive:
 - students know they can do well here and
 - High expectations
 - Think teachers know about their life outside of school
 - 99% students said teachers expect them to do their best
 - Challenges:
 - 50% felt they didn't belong here due to mental health
 - Students have felt discriminated against in some way
 - Student Focus Group: Campuses will be looking for students to give real-time feedback and input into changes that could make a significant impact. This will allow us to compare data from the survey to what students are feeling now versus students that completed the survey last year. Also it is a time to see how students interpret the data themselves.
